**DETAILED ACTION**

***Introduction***

1. Applicant's amendment filed on 4/9/09 has been received and entered in the case. The application is not in condition for allowance at this time because of the problems noted below with the declaration.

***Declaration Defective***

2. The declaration filed on 2/23/09 is defective because it still fails to identify at least one error which is relied upon to support the reissue application. Applicant should note that this error can be simply the use of a word or phrase in the claims that causes the originally patented claims to be too narrow (note, however, that newly added claims in the reissue application cannot be used to justify an error in the original patent). See MPEP § 1414 (II).

Applicant should note further that the amendment made on 4/9/09 requires another supplemental declaration that includes the "all errors" statement to cover errors corrected since the filing of the last proper declaration.

In light of the above-noted problem regarding failure to specify an error, a newly submitted declaration which specifies the error and includes the "all errors" statement can be used to correct both deficiencies.

***Claim Rejections - 35 USC § 251***

3. Claims 47-114 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

***Allowable Subject Matter***

4. Claims 47-114 are allowable over the prior art of record in view of the limitations added to each of the independent claims on 5/21/08 (these limitations also overcome the double patenting rejection set forth in the 2/26/07 office action).
